“ *To the Hampton family I'd like to extend my sincere condolences and want you to know that I share in your loss. Julius "Jul" was my first cousin but regrettably I did not know him as well as I should have given the unfortunate circumstances of our family. His father my uncle Archie died at an early age and for whatever reasons after the death of our grand parents our families did not stay in close touch. However when someone died in our family we could always count on Jul being there as family was obviously important to him, and I will always remember him for the love he extended by his mere presence. As a matter of fact the last time I saw him was approximately a year ago at one of our cousins funerals. When we talked on that occasion we discussed getting the family together that we might rekindle our relationships and better get to know one another. I deeply regret that did not happen because God had other plans for him. However I do hope that before my time comes to depart this life, that I will have the opportunity to meet his family and share our stores about him. He will be missed by his immediate and extended family. May God continue to bless his children, grand children and siblings.*
